

Oldham

OCTOBER 2021

Population of Oldham

230,823

Available education

Nurseries

Primary Schools

Secondary schools

Colleges

University

Education system

The vision

“We think Oldham can have a local education system that is ‘self-improving’. That is one where schools, the local authority and other partners come together to take collective responsibility for improving all schools, colleges and training across the board. It’s one where they set ambitious targets together, share information, resources and data, and offer closer support to each other.”

Estelle Morris

Education system

The vision

“This matters whether you are a parent, carer, governor, teacher, school head, local business owner, or member of a voluntary or community group. A high performing education system underpins all our ambitions for Oldham to regenerate and become a more vibrant place to live and work. This report makes it clear that we all need to focus on supporting every child to be ‘school ready’, ‘life ready’ and ‘work ready’. That means moving to a culture here where education is now ‘everyone’s business’.

Jim McMahon
